

# *Sculptor Super*

power strip

USER'S MANUAL

## SAFETY TIPS

---

- Never place the Fezz Audio Sculptor near heat sources, such as radiators, heaters or direct sunlight. Ensure adequate ventilation and airflow
- We also warn against exposure of the power strip to conditions such as very low temperatures and/or high humidity.
- When cleaning, always disconnect the power strip from the main power socket. Use a dry, soft cloth. Do not use water or cleaning agents.
- If your power strip starts to misbehave or to work incorrectly, if it's temperature gets too high or you start feeling smoke - immediately disconnect the device from the mains.
- Due to the risk of exposure to high voltages – please do not open the lid of the power strip. ATTENTION: This warning remains in force also in a situation where the device is already disconnected from the wall outlet.
- Always replace fuses in accordance with the original, intended specification.
- Do not make repairs on your own, or adjustments beyond those as described in this manual. Execution of any unauthorized repairs or modifications of the device result in a loss of warranty.

## INSTALLATION

---

### UNPACKING

Please kindly check if the packaging of the Sculptor power strip has not been damaged during transit. If you find any damages, please immediately contact your dealer. Remove the power strip from the packaging. Make sure that the content is not damaged.

Please do not dispose the original packaging, so as to facilitate possible shipment of the device in the future.

### CONTENTS OF THE PACKAGE

The package should contain:

- Fezz Audio Sculptor Super power strip
- User's manual
- Warranty card

**If any of the above items are missing in your package, contact your dealer immediately.**

## **Sculptor Super power strip features**

Sculptor Super is a well designed and perfectly made power solution for hi-fi and high-end audio equipment. A solid, metal chassis, 4 anti-vibration feet made of solid aluminum and anivibration mat inside reduces negative impact of vibrations for audio equipment. Rhodium plated schuko sockets provides convenient phasing and delivers a stable electrical high current connections.

### **1x DC BLOCKER socket**

DC Blocker is a device whose task is to eliminate the unwanted DC component of the 230V supply voltage. The DC component is caused mainly by switched-mode power supplies and all kinds of converters. The DC constant has a negative effect on transformers in audio devices - it causes the core to be over-magnetized (saturated), which results in a significant increase in the volume of their operation (so-called buzzing), heating of the transformer and deformation of the sine on the output. All these negative effects of the presence of a DC component may disrupt work and parameters of power amplifiers and other audio devices. A secondary effect is also a significant increase in the power consumption of audio devices due to excessive heating of the transformer inside. A frequently observed negative effect of the DC component is also uneven operation of the turntable motors, which translate the own vibrations to the platter.

Suggested usage: integrated amplifiers, recivers, power amplifiers, turntables, streamers, DACs, phono stages, preamplifiers

### **4 x HIGH-CURRENT universal direct sockets**

A set of three, star-connected, sockets directly powered from mains. Wired by multistrand copper, 2,5mm<sub>c</sub> cross-section wire.

Suggested use: hi-fi and high-end audio equipment – universal use

## **TECHNICAL DATA**

---

Type: Power strip

Model: Sculptor Super

Supply voltage: 230V

Power socket: rhodium plated IEC60320

Output sockets: rhodium plated schuko

Number of sockets: 5

Maximum load: 2.3 kW

Maximum continuous current: 10A

Dimensions: 436x115x110mm

Available colors: Black ice (black), Bleach (white)

Weight: 4.5 kg

Recommended power cord: Fezz Audio Auriga Super – empowered by Ziggy

## Declaration of Conformity

Manufacturer: **Toroidy.pl Transformatory L. Lachowski Sp.k.** (owner of Fezz Audio brand)

Address: **ul. Mazowiecka 20**  
**16-001 Książyno**  
**POLAND**

I declare that the product:

Brand: **Fezz Audio**

Model: **Sculptor Super**

complies with the following European Union Council Directives and Standards relating to electromagnetic compatibility (**EMC Directive 2014/30/EU**) and the low voltage Directive (**2014/35/EU**).

This declaration of conformity is the result of an examination carried out in accordance with European Standards for **EN 60065:2002+A2:2010+A12:2011+A11:2008** for low voltage, as laid down in article 10 of the EMC Directive.

A handwritten signature in blue ink, which appears to read "Lech Lachowski".
